Thursday 21st September 2017

Dear Parent/Guardian

Year 5 and Year 6 Hands On Science-Roller Coaster Challenge

We have been offered the opportunity to take six Year 5 and Year 6 pupils to an engineering workshop.

The workshop offers pupils the opportunity to solve a number of engineering problems. Pupils need to understand how to balance the interaction of energy, forces, friction and materials to best effect. The goal is to make the best value roller coaster, which runs for as long as possible. There is a competitive element too. Pupils work in teams to come up with the most successful and cost effective design.

The workshop will be held on Thursday 28th September 2017 from 12:30pm to 2:30pm at The Pavilion and Sports Ground, Watery Lane, Newchurch, PO36 OLX.

We will be leaving school during the lunch break, so your child will require a packed lunch. If your child is entitled to a school packed lunch, please tick the box on the attached slip.

We will use the school minibus to transport the pupils to the Pavilion. Your child will need to be collected at 2:30pm from the Pavilion.

Please complete the attached form. If you have any queries please do not hesitate to contact me via the school office.

Yours sincerely

Nicola Newton
